

SCExpert Track: **Tuesday, May 12**

7 - 7:50am	Breakfast	
8 - 8:45am	Inspire 2026 Opening Keynote: Bold Ideas, Big Reveals, and the Future of Supply Chain Kick off Inspire 2026 with bold ideas and big reveals. We're unveiling the product roadmap, showcasing game-changing updates, and introducing next-gen solutions that will transform your supply chain. Join us - the future starts now.	
9 - 9:45am	Beyond the Box: Reshaping Warehouse Operations with Cutting-Edge Tech with Keynote Speaker Dwight Klappich In today's turbulent warehousing environment, the old adage "a box is a box" no longer holds. What worked yesterday no longer meets today's demands. Amid bold promises from agentic AI to humanoid robotics, operations need clarity more than ever. Discover what's real, what's ready, and where the real value lies today and in the near future.	
9:30 - 10am	Innovation Zone: Meet Your Sponsors	
10 - 10:50am	Product Roadmap Join our product experts as they unveil the roadmap for Made4net's technology framework and solutions. Explore our 3-5 year vision and learn where innovation is headed.	AI and Automation: Redefining Roles and Workflows Real examples of companies reducing costs, improving accuracy, and gaining a competitive edge, while learning how to manage change and create a collaborative environment where technology and people thrive.
11 - 11:50pm	Advanced Configuration: Dashboard Insights & Automation See the power and flexibility of dashboards as a quick, visual view into key operational KPIs.	Next Generation User Interface Experience the next-generation user interface across both workstation and handheld (RF) applications, designed for enhanced usability and efficiency.
12 - 1pm	Lunch	
1 - 1:50pm	AI, Orchestration & Robotics in Today's Warehouse: How Leaders Drive Real Operational Gains Join us to explore and see how leading organizations are architecting their operations to successfully integrate Orchestration, AI and Robotics into the core of their fulfillment and distribution environments. Learn how benchmarking and performance statistics will help turn metrics into money and how practitioners are building practical roadmaps, aligning technology with process, and achieving tangible results.	
2 - 2:50pm	Inbound Trailer Check In & QC Inspection Overview of Inbound Trailer RF for configurable inspections with optional photo capture, and the QC module for managing quality tests and recording results.	The Key to Modern Supply Chains: Automated Testing That Delivers "It gets the job done" is no longer enough. As organizations embrace continuous change, this session explores how automated testing speeds deployments, reduces risk, and turns testing into a driver of innovation and resilience.
2:50 - 3:10pm	Innovation Zone: Meet Your Sponsors	
3:10 - 4pm	Customer Q&A Roundtable Join an interactive discussion with customers and Made4net experts to address key challenges, uncover new opportunities, and spark innovative ideas.	From On-Premise to SaaS: Why Migration Matters The shift from on-premise to SaaS is accelerating. This session covers key advantages like scalability, security, and cost efficiency, and how to plan a smooth migration for greater flexibility.
4:10 - 5pm	Cybersecurity in the Supply Chain: Protecting Your Digital Warehouse As warehouses become more connected, they also become more vulnerable. This session addresses the growing cybersecurity risks in supply chain operations and offers actionable steps to safeguard your systems, data, and customer trust.	

SCExpert Track: **Wednesday, May 13**

7 - 7:50am	Breakfast	
8 - 8:15am	Welcome to day two!	
8:15 - 9am	KPI Masterclass: Measure What Matters in Your Warehouse with enVista <hr/> Are you tracking the right metrics? This masterclass will help you identify and measure the KPIs that truly drive performance in your warehouse. From order accuracy to labor productivity, we'll show you how to turn data into actionable insights that improve efficiency and profitability.	
9:10 - 10am	Recent Product Updates Take a deep dive into the latest product releases and explore the key deliverables driving innovation.	DeliveryExpert Demo Review the Made4net Last Mile Delivery solution covering functional capabilities and analytics
10:10 - 11am	Power of Policies Explore the power and flexibility of configuring policies to manage workflow operations across key functional areas	Going Green: Sustainability Trends in Warehousing Sustainability isn't just good for the planet—it's good for business. This session highlights the latest green initiatives in warehousing. Learn how to align sustainability goals with operational performance and meet growing consumer and regulatory expectations.
11:15 - 12pm	Navigating the Future of Supply Chain Tech: Panel Discussion <hr/> The supply chain landscape is evolving faster than ever, driven by innovation, global disruptions, and shifting customer expectations. In this interactive panel, industry leaders and technology experts will share insights on emerging trends, critical challenges, and the technologies shaping the next decade.	
12 - 1 PM	Lunch & Innovation Zone	
12:45 - 1:35pm	Customer Case Study Overview of real-world customer stories highlighting practical challenges, lessons learned, and measurable outcomes from WMS implementations.	Latest AI Capabilities Explore the latest advancements in AI and ML within our product suite. Our experts will showcase recent deliverables and cutting-edge capabilities driving innovation.
1:45 - 2:35pm	Advanced Configuration: Screen Editor See our powerful screen-building and editing capabilities for UI and menu structure to tailor the user experience.	The Amazon Effect: How It's Reshaping Warehouses and Freight Customer expectations for speed and flexibility are higher than ever, driven by the "Amazon Effect." Learn strategies to stay competitive and meet next-day delivery demands without sacrificing profitability.
2:45 - 3:30pm	IKEA + Made4net: Fulfillment Management Solution Project Update <hr/> Discover how IKEA and Made4net are partnering to redefine fulfillment management. Learn how advanced technology and collaborative planning are driving efficiency, scalability, and customer satisfaction in one of the world's most complex supply chains. Gain insights into lessons learned and what's next for this transformative initiative.
